Do Good While Doing Business

Goodtel is the good telecommunications company. A telco that believes doing good is just as important as making a profit. That's why we donate 50% of our profits to good causes that help protect the planet and those in need.

Our mission is to turn Australia's daily use of telecommunications into a force for good.

Good things to know

\equiv
ۍ

Get a Good Bill not a Bill Shock

All our plans come with unlimited local, national and calls to mobiles. Pay one low monthly cost for each user including these calls and the handset.

Expert Business Support

We're experts in helping small businesses move to the nbn™ and supporting them once there. Our support teams speak plain English and love what they do so your business can focus more on the good and less on the telco.

30 Day Goodness Guarantee

We know you'll love the service but if it's not good for your business return the equipment to us in the first 30 days and we'll provide you a refund for any payment made.

50% of Profits to Your Selected Good Cause

By switching to Goodtel you are combining your telco needs with your desire to do good in the world. Select your Good Cause when signing up and be proud in the knowledge that your business is helping those in need and the planet. Customise your plan

- Works from any Location
- Built for Small Business
 (2-30 Users)

Have certain calls forward to others automatically to reduce missed calls and lost business. Calls can be forwarded in several ways including based on a line being busy, unanswered, the time of day or even the specific caller's number.

3-Way Calling

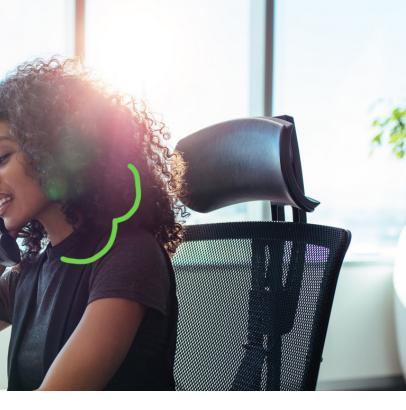

Improve communication between your team and your customers. Easily add new callers in for conversations with multiple people.

Auto attendant (IVR)

Greet your customers with a customised and professional greeting allowing them to direct their call to the right place.

Call Control

Have peace of mind and ensure everyone in your business has the right calling access. Call control allows you to specify what type of call each team member can make. Easily disable calls such as international and still allow access to make them via a PIN code.

Voicemail to email

Access your office voicemails whenever you need them. Voicemails are emailed directly to the user as an audio file.

Time & Location Based Routing

Have calls sent to the right place every time. Specify calls to route to individuals or teams and vary on hold messages based on the time of day. Callers can also be routed based on the location they are calling from to ensure they are talking to their nearest or best location.

Multiple Number

Running two businesses? Get a second business telephone number without a full additional line rental. The Multiple number gives a different ring tone allowing you to distinguish which business your caller is calling into.

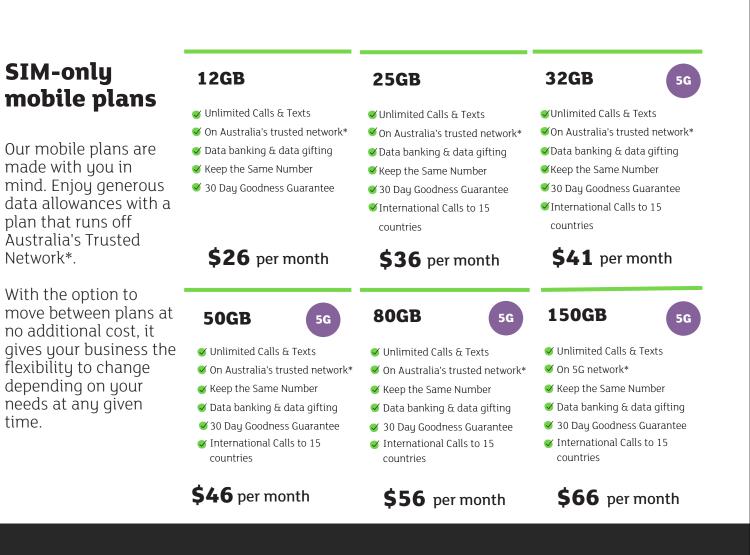

Hunt Groups

Improve how calls are answered. Automatically have calls directed to the right person or allocate specific types of calls to route to individuals or teams.

Mobile plans

time.

Business Internet

*Goodtel uses parts of Telstra's 5G, 4G and 3G mobile networks. The service provides 5G Coverage reaching at least 75% of the Australian population. The Telstra Wholesale mobile coverage area footprint reaches more than 98.8% of the Australian population and covers more than 1.6 million square kilometres of the Australian landmass.

Superfast Fibre Internet

Goodtel provides a range of business grade fibre services to help future proof business performance.
